

PROJECT TYPE
New Construction

BUILDING AREA
4,820 Sq. Ft.

CONSTRUCTION COST
\$850,000

CONSTRUCTION DATES
October 2013 - September 2014

GENERAL CONTRACTOR
Hooker Contracting

SERVICES
Schematic Design
Design Development
Construction Documentation
Construction Observation

Las Palapas

San Antonio, Texas

Acuform worked with Hooker Contracting in a design-build arrangement for Las Palapas restaurant. This coastal Mexican style structure with distinctive vibrant colors sits on a tight site with steep topography. Acuform accommodated the prototype structure to create an efficient site and parking layout and satisfied the desires of the franchisee while meeting the requirements of the franchise owner.

“Acuform worked closely with the franchise owner to reduce overall costs while incorporating the evolving image program.”

Acuform’s knowledge and experience with restaurant design and knowledge of equipment, assisted with the careful coordination of the kitchen in order to accommodate all equipment and minimize employee travel for a more effective work flow. While improving an evolving image program, Acuform also focused on value-added elements and simplified or omitted expensive and insignificant elements to reduce overall costs.
